## MUSICAL FESTIVAL OPENS MONDAY NEXT

Blairmore will be the scene for music lovers during the first three days of next week, when the sixth annual Crows’ Nest Pass Musical Festival will take place at the opera house here.

All is in readiness and one of the most successful festivals yet held is anticipated. We understand that with the area slightly enlarged, the number of entries will be considerably in excess of last year.

Exceptionally fine programmes are offered for each night, while a remarkable array of talent will take part in the day competitions.

Already, heavy bookings have been made at local hotels, so that a large attendance might be assured.

For the benefit of those who may be unable to secure an official copy of the programme, the full text of same is contained in this issue of The Enterprise.

## ANNUAL MEETING ALBERTA BASEBALL ASSOCIATION

The annual general meeting of the Alberta Amateur Baseball Association will be held at Stately on Wednesday, May the 7th, at 3 p.m.

At this meeting, all clubs affiliated with the association are entitled to representation and one vote.

The affiliation fees are: \$12.50 for senior or intermediate clubs, and \$7.50 for junior clubs.

For further particulars, apply to E. D. Bateman, hon. secretary-treasurer, 219 P. Burns’ building, Calgary.

## THE “SHOW BOAT” IS COMING COLES

### THEATRE ANNOUNCEMENTS

One of the most moving romances ever told on the screen, as well as one of the most spectacular productions ever made, will be offered patrons of the Cole’s Bellevue theatre when Universal’s \$1,000,000 super “Show Boat,” begins its three-day run on Thursday next.

This colorful epic of the Mississippi Valley and of Chicago in the last generation, embodying the glamorous love story of Magnolia, the young show boat girl played by Luella La Plante, and Ravenal, the romantic young gambler played by Joseph Schildkraut, is based upon the internationally famous novel of the same name by Edna Ferber.

“Show Boat” itself, which is superbly presented, was made by Harry Pollard, the famous director who was responsible for the Universal masterpieces, “Uncle Tom’s Cabin.” The company supporting Miss La Plante and Schildkraut includes such favorites as Otis Harlan, Emily Fitzroy, Alma Rubens, Jack McDonald, June La Verne, Neely Edwards, Elsie Burtlett, and many others.

## NANCY CARROLL TELLS MEANING OF “SWEETIE”

Lessons on how to be a “sweetie” were given recently to an eager group of schoolgirl extras by Nancy Carroll, Paramount star. As the “sweetie” in “Sweetie,” a romantic revue, Miss Carroll portrays a chorus girl who suddenly finds that she has inherited a boy’s school.

“Sweetie really comes from the word sweetheart,” explained Miss Carroll. “To be a ‘sweetie,’ a girl must remember first of all to be as feminine as she can. It would not be a bad idea for a ‘sweetie’ to faint and swoon now and then as the ‘sweetie’ of yesterday did, just to remind men how fragile and feminine they were.”

“A girl makes a great mistake in trying to merely be a man’s gal. Of course, she should be a pal while she is a ‘sweetie,’ but to strive to be a pal only, is disastrous. Men marry their ‘sweeties’ but never their pals, unless they find that he really is a ‘sweetie’

## THE PASS AIR MAIL ROUTE CONSIDERED FAVORABLE

Squadron Leader J. H. Tudhope, superintendent of the western air mail service, arrived in High River Saturday evening with a new 500 m.p.h. plane received recently at Wichita, and which is now being used in the selection of a mail route across the Rockies. There are three routes being tried and this Crows’ Nest route is considered the most feasible. This route affords numerous emergency landings and from Lethbridge to Vancouver is almost a direct route.

Mr. Tudhope left here Sunday morning for Moose Jaw and according to press dispatches he is of the opinion that mail-carrying by plane over the Rockies is quite safe and feasible. Mr. Tudhope left for Edmonton, whence he will survey the area westward to Kamloops, B. C. over the C.N.R. via Jasper. Added to his previous survey, this trip will complete the preliminary discovery journey of the Rocky Mountain area. There is no doubt that a safe mail route can be established by carefully mapping a route through the mountains, according to Squadron Leader Tudhope. Many sections of the country present plateaus and valleys, he said, which would permit emergency landing fields—High River Times.

## INSTITUTE PUBLIC LIBRARY

We are pleased to acknowledge eight volumes from Mrs. Upham and three from Frank Morgan.

Several new books have been added to the shelves this week, probably the most important of which is “The Christ of Every Road,” by George Jones. This new book by the author of “The Christ of the Indian Road” should be read by all Christian people. The library is open every Tuesday and Saturday from 7 to 9 p.m. A membership fee of \$1.00 entitles you to four books at one time. Membership lasts for twelve months from the date you join.

## CROWS’ NEST PASS ENTRIES FOR LETHBRIDGE FESTIVAL

The Lethbridge musical festival will take place during the first week in May, and, according to the Lethbridge Herald, indications point to a splendid entry list from prints in the Crows’ Nest Pass. The Herald states that Miss M. Chardon, piano teacher, of Blairmore, and Mr. W. H. Moser, violin teacher, of Hillcrest, have been responsible for sending numerous entries in, and that Mr. Moser intends bringing down the Hillcrest amateur orchestra to compete.

## TEETH OF SCHOOL CHILDREN TO BE INSPECTED

At a meeting of the Blairmore Board of School Trustees held on Friday night last, it was decided to grant the sum of \$200 towards inspecting the teeth of children attending the local schools, and that Drs. H. B. Housar and R. K. Lillie be asked to undertake the work at once.

The new Alberta Meat Market was opened in the Alberta hotel block on Saturday last by J. P. O’Neill, former district manager with Burns & Co. Ltd. Mr. O’Neill proposes carrying on business along a cash basis and was accorded a liberal amount of patronage on the opening day.

after all. When a man puts a girl on the shoulder as though he were saying ‘good old girl,’ she is sunk.

Every girl can be a ‘sweetie,’ whether she is a frivolous little flapper or a more serious person, because for each type of man there is a different type of ‘sweetie.’

This town will learn all about ‘sweeties’ when “Sweetie” comes to the Orpheum theatre this week.

## COLE’S THEATRE BELLEVUE

### Friday and Saturday - April 18 and 19 “**The Fox Movietone Follies**”

All Singing—Dancing—Talking

and what singing, what comedy—all the big attractions of the vaudeville stage, including

#### CHAPTER VIII.—Continued

The girl laughed, handed him "Cabo's Diagnosis," and wiped the top of her great-grandfather's head with the dust cloth, as she replied: "I was merely considering the fact that it may have caused Jim Bennett to use his own brains—instead of his mother's."

The doctor pondered for a moment while Charman watched him, a smile hovering on her lips.

"I begin to see light in the darkness," he said at last. "Your friend Bennett, I gather, possesses a forceful maternal relative who prefers, let us say, the mail-order variety of goods, to the honest home-made product. She must be mentally unbalanced."

Charman's smile widened, but she flushed also, a fact that did not escape the watchful eye of her companion.

"You are too clever for an unsophisticated country maid," she said. "You mean, 'provincial,' don't you?" he retorted, grinning.

"I had almost forgotten that terrible appellative. Poor Grandmama. How it did trouble her. There! This place would look just right if we had a rug before your desk, and a couple of old brass candlesticks on the mantel. And we must think up the accessories. As for the cushions, I'm sure the ladies would want to buy them, and Grandmama would have consented if I hadn't arrived in the nick of time. She argued that they weren't doing us any good out here, and that the ten dollars she had offered—"

"Ten dollars!" broke in the doctor. "He was a shark."

"Wasn't he?—though I had hard work persuading Grandmama that I wasn't insane to refuse his offer. If you'll get the brass polish in my kitchen closet, I'll allow you the pleasure of shining those andirons yourself! These windows need hangings, Doctor. You don't want the filthy public looking in while you stick spoons down your patients' throats, do you? There's some nice old Java cotton in the attic that would be splendid—dark red, and very dignified! I'll get it for you to see."

"But I should pay for the furnishings myself," he objected. "I'm in luck not to be obliged to buy a desk or—"

"Nonsense," said Charman, who was already at the door. "It's enough to ask you to buy a rug. I couldn't save my soul, secure you money enough for the right sort. You can get to work on the andirons while I skip upstairs."

But the andirons were destined to remain unpainted a while longer. As they stepped inside, Grandmama's voice sounded from the shop.

"Come here, both of you." Her eyes were bright with interest as they obeyed. "I've been pondering for

"Have you got 'em" he questioned anxiously, as he stood hesitating in the doorway.

"The beads?" asked Grandmama innocently. "Sit down, Edgar, and rest yourself a minute. You look as hot as tophet. You've got some new shoes, haven't you? I heard the squeak when you came up the steps. I guess you bought 'em at Earl and Hovey's. My husband used to say that Elias Earl bought squeaky shoes to sort of advertise his business. When he'd go up and down the steps on Sundays passing the contribution box, folks would hear the squeak and be reminded of what he had to sell. And you're wearing a new tie, too. Aren't you getting a little old for a red necktie, Edgar?"

The deacon cleared his throat, while one large, hairy hand sought the latest extravagance that adorned his neck.

"I like a bright tie, Grandmama. Nothin' like dressin' sort o' massey on—on occasions. Now these beads—"

"And yet," broke in Grandmama heartlessly, "with poor Sarah only six months in the grave. . . ."

She sighed, and her caller, adjusting a moment, replied sanctimoniously: "Do you consider it Christian to mourn when our loved ones have gone to a brighter shore? Man was not meant to live alone, Grandmama, or—well, about those beads—"

Grandmama's face twitched, while Charman, at a vision of Deacon Purdie with pale blue beads ornamenting his frock coat as he passed the contribution box, ventured a giggle.

"Don't you see," asserted the old lady, suddenly serious, "that he's making up to Lucilla Moore, that widow woman with the six children, just like Jim Bennett told me? It's she he wants those beads for, you understand."

Grandmama's lip twitched, while Charman, at a vision of Deacon Purdie with pale blue beads ornamenting his frock coat as he passed the contribution box, ventured a giggle.

"Don't you see," asserted the old lady, suddenly serious, "that he's making up to Lucilla Moore, that widow woman with the six children, just like Jim Bennett told me? It's she he wants those beads for, you understand."

### True dyes are easiest to use!

Dresses, drapes or lingerie look new when they're dyed with Diamond Dyes. No spotting or streaking; never a trace of that red-dyed look. Just rich, even, bright colors that hold amazingly through wear and washing.

Diamond Dyes are the highest quality dyes you can buy because they're so rich in pure aniline. That's what makes them so easy to use. Simple as 1-2-3. They're famous for 60 years. 15 cent packages—all drug stores.

### Diamond Dyes

Highest Quality for 50 Years

#### A Japanese Discovery

Doctor Says Long Eyelashes Are Sign Of Weak Vitality

Long eyelashes are considered to add to the charm of a face. But they are, according to a Japanese physician, a sign of weak vitality. This doctor says that consumptive children have lashes twice as long as those of healthy little ones. While a normal baby's eyelashes grow about an eighth of an inch during its first year, tiny sufferers from infantile diseases have at the end of twelve months lashes twice as long. These discoveries were made in a hospital attached to one of the Imperial Universities.

### WARNING TO MOTHERS

Watch the Health Of Your Little Ones At All Times

No mother can expect that her baby will grow up free from all ills to which babyhood and childhood are subject, but she can do much to prevent ailments that make the mother's life a torment. The mother should be constantly on her guard to prevent ailments that make the mother's life a torment. The mother should be constantly on her guard to prevent ailments that make the mother's life a torment.

"Do they come high?" he questioned after a serious moment.

"That depends on what you expect to do with 'em," replied the old lady briskly. "If you were going to donate 'em to a church fair, say, why you might hesitate; but if they're a gift to a lady friend, or some dear, loved relative, Edgar, why that's a different matter. They're worth two dollars."

"Two dollars!" he exploded in genuine consternation. "Did you say two dollars, Grandmama Davis, or have my ears deceived me?"

"Your hearing is all right, Edgar, and you can be thankful for it, too, a man of your age. Beards are stylish these days, and the price makes a little bit inflated." "Inflated!" murmured one of the eavesdroppers in the next room. "Gosh!" "And if—"

The deacon arose dazedly, reaching for his hat.

"It's too much to expect of a man, Grandmama," he said regretfully. "I had no idea they come so high. Maybe I could use something I got at home, or—"

"If it's for a present, Edgar, broke in Grandmama soberly, "I wouldn't risk any second-hand junk from 'round the house. Now you look here, maybe we'll come to terms."

"I'd give a dollar for 'em," admitted the deacon grudgingly, "though such a waste of money seems almost sinful, and not one cent higher will I go."

Grandmama reached for the beads and began arranging them carefully on their satin bed.

"Well, I'm sorry, Edgar." Her tone was definitely final. "But you wouldn't want me to lose money on the transaction, would you?"

"What did they cost you, Grandmama?" queried the deacon warily, and sat down again. "I—t might on a pinch give a dollar and a quarter."

Grandmama sniffed.

(To Be Continued.)

#### A Graceful Act

Sir Hubert Wilkins To Present "Plane To Father Of Ben Eielson

Sir Hubert Wilkins stated at Halton, N.D., that he would present Ole Eielson with a "plane" he saw during Arctic research with the Australian explorer.

The "plane" will be a memorial to the father of Wilkins' pilot, Carl Ben Eielson, who lost his life in a flight of mercy in the Arctic in which he had done so much exploring.

Ole Eielson said he would give the "plane" to the state or to the Eielson Memorial Association to be placed in a museum.

In some species of the whale the throat is so small that an orange cannot be swallowed.

### C.N.R. Has Heavy Programme For West

Plans To Spend \$25,000,000 On Maintenance And Construction This Year

The Canadian National Railways will spend \$25,000,000 on new construction, maintenance and general betterment work in Western Canada this year, according to a statement issued today by A. E. Warren, vice-president of the Western Region of the company. This figure is exclusive of the sums which will be spent on the Hudson Bay Railway, and it does not include the Canadian National's share of the budget for the Northern Alberta Railways.

As has already been announced, \$9,000,000 will be used in the branch line building programme. This work constitutes this year's portion of the three year programme approved by the Federal Parliament in 1928, and most of the lines are located in Saskatchewan and Alberta. Two are being built in British Columbia. Altogether 12 branch lines are included in this year's western programme.

The balance of the money will be used on lines in the west now in operation, and on the two hotels which are under construction in Vancouver and Saskatoon. Relaying of steel, track maintenance and improvement, ballasting, track extensions, bridging, fencing, the erection of new buildings, water supplies and railroad facilities generally comprise the bulk of the work for which provision has been made. It is not possible at this time to particularize the various items in the budget since each item requiring a capital outlay must be sanctioned by parliament before work can be commenced.

It can be said, however, that among other things, the company proposes to replace 270 miles of 80 and 85-pound steel with new 100-pound steel to relieve 100 miles of light track with 80 and 85-pound steel. In the programme for further strengthening track structure the installation of some 2,726,000 tieplates and 680,000 rail anchors is contemplated. Between 2 1/2 and 4 million ties will be replaced; of this number about 15 per cent will be treated ties. A considerable amount of ballasting is also proposed.

The extension of 100 feet of passing tracks on trunk lines is proposed. This increased capacity will permit a more economical use of power. Provision is made for the construction of through sidings at 31 points in addition to existing passing tracks, thereby releasing the passing tracks entirely to train operation and so providing an avenue for a further speeding up of passenger and freight train schedules. Twelve loading track extensions are also projected; yard extensions, improvement and rearrangement has been provided for at a number of points, the most important of which is Saskatoon where the extensive terminal changes which were begun last year will be proceeded with.

Together with the branch line programme already mentioned, the proposed work constitutes a heavy programme for the engineering forces. The branch line programme alone calls for the grading of 1759 miles of line; the construction of 155 miles; ballasting on 217 miles; the erection of 300 miles of fencing; 240 miles of telegraph line; 20 station buildings; 40 sectionmen's dwellings and 10 water stations including tanks and pumphouses.

The programme on the Hudson Bay Railway, which is being supervised by the engineering department of the Canadian National Railways for the government, is also extensive. Westerners believe, only partly right when he tells the House that road building is a provincial responsibility. It could be proved by that; the bulk of the Canadian constitution, the British North America Act, it is expected that the progress to that road building is an affair for the provinces, just as the prime minister says. But the draftsmen of the act no more anticipated the coming of the automobile, than they anticipated, say, the entry of women into politics and parliament. Yet, while the market roads and the byways of travel are provincial responsibilities, surely, if the transcontinental railways are to be the backbone of the Dominion of Canada, why not transcontinental highways, in these days of universal auto travel?—Calgary Albertan.

Seville, Spain, will continue its international exhibition until June 30.

Canada was the first country to make practical use of photography in surveying on an extensive scale. Methods of photographic surveying were developed over forty years ago by the late Dr. DeWitt, surveyor General, Department of the Interior, and large areas of the Rocky mountains have been so surveyed.

Methods of photographic surveying were developed over forty years ago by the late Dr. DeWitt, surveyor General, Department of the Interior, and large areas of the Rocky mountains have been so surveyed.

Canada was the first country to make practical use of photography in surveying on an extensive scale. Methods of photographic surveying were developed over forty years ago by the late Dr. DeWitt, surveyor General, Department of the Interior, and large areas of the Rocky mountains have been so surveyed.

### "After Baby Came I Was Weak, Skinny, Gained 22 lbs."

"After baby was born I was very weak, skinny, and taking time to get back to normal. Gained 22 lbs."—Mrs. Laura Bennett.

Thousands write new Ironized Yeast adds 5 to 15 lbs. in 3 weeks. Ugly hollows fill out. Bony ribs get graceful roundness. Muddy skin gets clear and rosy like magic. Nervousness, indigestion, constipation vanish overnight. Sound sleep, new pep from very first day.

Two great tonics in one—apert weight-building Malt Yeast and strengthening Iron. Pleasant little tablets. Far stronger than unmediated yeast. Results in half time. No yeast taste, no gas.

So quit being "skinny," tired, unattractive. Get Ironized Yeast from druggist today. Feel great tomorrow. Money back from manufacturer if not delighted with quick results.

### Little Helps For This Week

"It is a good thing to give thanks unto the Lord, and to sing praises unto Thy name, O Most High."—Psalm 92. 1.

Seven whole days, not in seven. I will praise Thee; In my heart, though not in heaven. I can raise Thee.

Small it is, in this poor sort To enroll Thee; 'E'en eternity is too short To extol Thee.

George Herbert. I think to be, not so the poet we ought to be; we are lacking in the spirit of praise. We are far too much given to complaints and wallings, and I do not think these can please our Holy Father. If you are seeking to help another here, are to be benefited on any one, it is not cheering to listen to a ceaseless tissue of lamentations. God expects His blessings to be acknowledged, both temporal and spiritual.

Archer Thompson Gurney. I think to be, not so the poet we ought to be; we are lacking in the spirit of praise. We are far too much given to complaints and wallings, and I do not think these can please our Holy Father. If you are seeking to help another here, are to be benefited on any one, it is not cheering to listen to a ceaseless tissue of lamentations. God expects His blessings to be acknowledged, both temporal and spiritual.

 Hales, Doris; Blairmore No. 239  
 Miller, Edward; Pincher Creek No. 240  
 Shaylor, Eunice; Pincher Creek No. 241  
 Trono, Dorothy; Pincher Creek No. 242  
 Westrup, Isabel; Hillcrest No. 243  
 Whentoft, Wilma; Blairmore No. 244  
 First and Second Prize Medals donated by Mr. F. M. Thompson, Blairmore.

**TRIO—VIOLIN, CELLO, PIANO**  
 One Piece of competitors' own choice.  
 "A" COWLEY  
 Bruce Bouthiller, John Cowin, Ketha Tuslan No. 107  
 "B" BLAIRMORE  
 Jean Upton, Ed. Upton, Roy Upton No. 108  
 Three First Prize Medals donated by Dr. G. Blair Rose, Hillcrest.

**VOCAL—UNDER 16 YEARS**  
 "Who is Sylvia?" Key A Flat Schubert  
 Trono, Dorothy; Pincher Creek No. 154  
 First Prize Medal donated by Mr. L. L. Morgan, Blairmore.

**VOCAL—UNDER 14 YEARS**  
 "Gathering Daffodils," Key A Flat Arthur Somerville  
 Leigh, Verdon; Cowley No. 153  
 Ouellette, Yvonne; Pincher Creek No. 154  
 Pelletier, Adrienne; Pincher Creek No. 155  
 Wheatcroft, Grace; Blairmore No. 156  
 First and Second Prize Medals donated by Mr. Raoul

Green, Blairmore.

**NOTE—VIOLIN AND PIANO SIGHT READING COMPETITIONS** will be held on the afternoon of the Third Day of the Festival and Entries for these events will be received up to Noon of that day.

## WEDNESDAY AFTERNOON

April 23rd, at 2 o'clock

**VIOLIN—GRADE 4, SENIOR, OVER 15 YEARS** Zimbalist  
 "Elegy" Priml  
 Crickshaw, Robert; Hillcrest No. 64  
 D'Amico, Rinaldo; Hillcrest No. 65  
 Johnson, Cecil; Blairmore No. 66  
 McLaferly, Dennis; Bellevue No. 67  
 First and Second Prize Medals donated by Mrs. Frank J. Smith, Hillcrest.

**OPEN BARITONE** Oley Speaks  
 "On the Road to Mandalay" Schumann  
 Griffith, D.E.; Hillcrest No. 168  
 McMurdo, A. B.; Pincher Creek No. 169  
 Phillips, A. J.; Coleman No. 170  
 First Prize Medal donated by Mr. L. L. Morgan, Blairmore.

**PIANO DUET—JUNIOR, UNDER 16 YEARS** Schutt  
 "A la Bien Aimee" Pincher Creek No. 279  
 "B" Hoare, Phyllis; Pincher Creek No. 280  
 Ouellette, Yvonne; Pincher Creek No. 281  
 Trono, Dorothy; Pincher Creek No. 282  
 Two First Prize Medals donated by Mr. Fred. Antrobus, Coleman.

**VIOLIN—SIGHT READING—One First Prize Silver Medal.**

**PIANO—SIGHT READING—One First Prize Silver Medal.**

## WEDNESDAY EVENING

April 23rd, at 7 o'clock

Chairman—MR. L. L. MORGAN, Blairmore

President of the Festival Committee

**VIOLIN—OPEN SENIOR** Mosel Max  
 "Berceuse" and One Piece competitor's own choice. No. 82  
 Freebairn, Laura; Pincher Creek No. 83  
 Leigh, Verdon; Cowley No. 84  
 First Prize Medal donated by Crows' Nest Chapter I.O. D.E., Blairmore.

**VOCAL—SPECIAL EVENT, Open to Any Voice**  
 One Piece Competitor's own choice. No. 178  
 Bailey, Miss Jessie; Pincher Creek No. 179  
 Huestis, Mrs. Ivy M.; No. 180  
 Dicken, Miss Isabel; Fernie No. 181  
 McMurdo, A. B.; Pincher Creek No. 182  
 Jones, Mrs. Dorothy; Smith; Macleod No. 183  
 The Cecil Rees Memorial Cup has been donated for this competition.

Following the above numbers a programme of varied instrumental music will be contributed by prize winners in various events.

**Violin Solo by Mr. Holroyd Paul.**  
 If possible to arrange it, Mr. Paul will contribute a violin number.

## Distribution of Prizes

The foregoing programme should prove of intense interest to every lover of music.

## List of Cups, Trophies and Shields

**The Cecil Rees Memorial Cup**  
 Donated by relatives of the late Cecil Rees, for Vocal open. Not a Challenge cup.

**The Verdun Leigh Cup**  
 Donated by Miss Verdun Leigh, for the highest marks obtained in Grade IV, Violin.

**The Moser Cup**  
 Challenge cup, for the highest marks obtained in Piano.

**The Chardon Cup**  
 Challenge cup, for the highest marks obtained in Violin.

**The Blairmore Junior Musical Club Trophy**  
 Challenge cup, for the highest marks obtained in any event in the Festival.

**The Moser Shield**  
 For Junior Orchestra. At present held by Hillcrest Junior Orchestra. Becomes the property of the orchestra winning it two years in succession.

**The Morgan Cup**  
 For Junior Church Choirs. At present held by Pincher Creek United Church Junior choir. Becomes the property of the choir winning it three years in succession.

**The Pincher Creek Shield**  
 For Senior Orchestra. At present held by Coleman Orchestral Society. Becomes the property of the orchestra winning it three years in succession.

**The Morgan Cup**  
 For Male Chorus. At present held by the Hillcrest Concert Party. Becomes the property of the choir winning it three years in succession.

**The Pincher Creek Cup**  
 For Senior Church Choirs. At present held by Pincher United Church. Becomes the property of choir winning it three years in succession.

**ADJUDICATORS**  
 Mr. HOLROYD PAUL, the well known violin teacher of Vancouver, B.C., who studied under Prof. Sevek, of Prague, and Oscar Thomson, of Brussels, and other renowned professionals of Europe, and  
 Mr. RHYND JAMESON, musical critic of the Vancouver Daily Province.

**OFFICIAL ACCOMPANIST**  
 Mrs. A. L. Freebairn, of Pincher Creek, will be in attendance throughout the Festival as Official Accompanist and her services will be available to any competitor who is without an accompanist.

**ACKNOWLEDGMENT**  
 Through the kindness and cooperation of Mr. J. P. Avery, Calgary, and Heintzman & Co. Ltd., of Calgary, the Festival will have the use of a Heintzman & Co. Ltd., Grand Piano.

**ADMISSION PRICES**  
 Mornings and afternoons - Adults 25c - Children 15c  
 Evenings - Adults 50c - Children 25c

# **LOVE PUTS PUCK IN**

"AVIATOR" WHO WINS  
FAME WILLY NILLY

Staid, middle-aged, an author with a very delicate liver—he was suddenly called upon to execute a series of hair-raising stunts in an aeroplane! And he had never been in an aeroplane.

He became dizzy when he even stood on a chair for the test but he finally got the ship off the ground, and promptly began to cut up the most fantastic and appalling diabolical. The fact that he was all the time trying to keep the plane on an even keel had nothing to do with the case. The watchers on the ground thought he was marvelous. The one girl was ecstatic.

This is but one of the many hilarious sequences of "The Aviator," the Warner Brothers all-talking Vitaphone production which comes to the Orpheum theatre on next Monday, Tuesday and Wednesday.

# **GOLD RUSH DAYS IN**

ALL-COLOR, SINGING.

"SONG OF THE WEST"

The epic sweep of the old West is the background against which "Song of the West," Warner Bros. latest 100% natural color, singing, talking, dancing picture in technicolor, coming to the Orpheum theatre next Thursday, Friday and Saturday, is pictured. Drama and comedy are intermingled in this tale of pioneer days. The story starts at old Fort Independence, and moves along with the westward march of the pioneers to the California mining towns, San Francisco and the Golden Gate. A dramatic love story, which concerns a young desperado, and several of the crinolined ladies of the covered wagon caravan, is the core of the drama.

John Boles and Vivienne Segal play the leads, and Marie Wells, Joe E. Brown, Sam Hardy, Rudolph Cameron, Marion Byron, Eddie Gribben and Ed. Martindale are in the cast and there is a chorus of 100 voices.

# **A. E. A. CONVENTION**

CALGARY, EASTER WEEK

The twentieth annual convention of the Alberta Educational Association which meets in Calgary Easter week offers the teachers and others interested in education an opportunity to hear an educationist of outstanding ability and reputation, in Dr. Boyd H. Bode, of Ohio State University, whose life work is the training of teachers.

Dr. R. C. Wallace, the president of our own University, will be heard for the first time by Alberta Teachers and the executive has arranged a discussion for Thursday morning by outstanding educationists on the validity of our educational objectives.

The Excelsior Glee Club will furnish a treat on Wednesday evening for the lovers of song, and the city should offer an attraction for visitors for the Easter season, and last but not least, the opportunity of renewing friendships formed at the seats of learning.

Another old timer has passed away in the person of John Podbielanek, sr., resident of Fernie since 1902, who died at his home in West Fernie early Tuesday morning at the ripe old age of ninety-one years. The late Mr. Podbielanek was born in Slovakia and came to Canada in 1887. He resided in Winnipeg for the first year, where he worked on the section for the C.P.R. He went to Fort William the following year, where he worked at unloading grain into temporary sheds, for at that time there were only two elevators in the west. His family landed in Canada at Port Arthur in 1888 where they lived until 1902, when they came to Fernie. Deceased led a very active life until the last few years. He is survived by his three sons, John, Stephen and Joseph. His wife died in 1914. The funeral services were held in the Holy Family Church, Rev. Father Bessette officiating—Fernie Free Press.

John Rae left for New York on Saturday last, after a brief visit with his parents here.

# **How to Judge** **Scotch Whisky**

THE OLDEST BRAND  
Established 1742

Whisky can be matured and still be almost colourless. The colour is obtained from the particular wood in which it is matured, and if matured in plain oak casks there would be little or no change in the colour of the whisky. Do not, therefore, judge whisky by colour. It does not always indicate age or strength.

**The Right Way to Test Good Whisky**  
Experts test whisky by the nose and the palate. To tell a good whisky by the nose is rather difficult, but most people can rely on their palate, and if you have a sensitive palate you should have no difficulty in detecting the fine qualities of "White Horse".

A note in whisky does not necessarily signify that it has great alcoholic strength. Cheap and inferior whisky has a decided bite. If whisky is matured for 20 to 30 years the strength is reduced very considerably.

**"Marrying" of "White Horse"**  
Scotch Whisky is a blending of malts and grain whisky. The "White Horse" only makes of Scotch Whisky are selected. They are matured for a long period before being blended. After the first blending, "White Horse" is allowed to rest for a long period before being again allowed to be in the wood. The general public have very little knowledge of time, age, and care involved in this "marrying" of "White Horse" whisky before it is bottled.

## The Problem Of Unemployment

The nations of the world, and more especially those of the white race, and of these those most highly industrialized, are confronted with a common problem which is becoming increasingly acute, namely, unemployment, resulting from a lack of sufficient employment for hundreds of thousands of people, able, willing and competent to work, but who are unable to secure it.

The present situation is a paradox. No less competent an authority than the United States President's Committee on Recent Economic Changes reaches the conclusion that the rise in unemployment in recent years is not so much the result of recession in industry, closed factories and general depression, usually advanced as causes of unemployment, as it is the direct outcome of prosperity itself.

In other words, the intensified activity which has characterized progress in the past decade has likewise intensified, and in a sense created anew, one fundamental economic problem—the problem of unemployment.

The problem of unemployment has been recognized since the war as a serious one in Great Britain, and greater publicity has been given the British situation than in other countries, largely because of the fact that in Britain, with its schemes of unemployment insurance, facilities existed for obtaining a more accurate accounting of the actual number out of work. It is now becoming more generally known that the percentage of unemployed to population is almost as high in many other countries, and higher in some. And the number of the enforced idle is increasing, until it is now estimated that 20,000,000 or more throughout the world are unemployed.

The situation in Canada is decidedly better than it is in the United States, Great Britain, Germany, Italy, and most other countries. Even so, unemployment is a subject of growing concern in this Dominion to all Governments, municipalities, labor organizations and business interests in general.

Of course, in a young and developing country like Canada, and particularly in view of its long winter months which necessarily slow up many of our major activities, there always has been, and in all probability, always will be seasonal unemployment. That is unavoidable, and those engaged in occupations which must slow up, or be temporarily suspended in the winter, must, like the farmer, earn a substantial amount in the months of activity to carry him through the slack period.

But why, following one of the most active years in the industrial history of Canada, with building construction records greater than ever before known, with development works of all kinds in progress, unemployment practically unknown, business maintained at a high peak, which was the situation during the first three-quarters of 1929, should the unemployed problem be more acute than ever in the late fall and winter months? The answer cannot be found in any one thing, but is made up of many factors.

Let us consider Western Canada alone. In 1928, with a record crop volume of low grade, this country had to import over 50,000 harvesters, thus providing temporary employment which benefited the whole country. In 1929 it was not necessary to import any harvesters, partly because of a 50% reduction in grain yield owing to drought conditions, but also largely because combined reaper-thresher machines, coupled with the use of motor trucks on a large scale, eliminated the work hitherto performed by manpower.

Decreased volume of production resulted in a heavy falling off of railway freight movement, and consequent large decrease in railway employment, which was accentuated by the general tie-up in the wheat markets. All down the line business was affected adversely, and unemployment grew.

Again, take railways. Every year witnesses increased traction power of locomotives. In the United States the tractive power of locomotives per railway employee increased 11 per cent. in the seven years between 1912 and 1920, but 35 per cent. in the two years between 1925 and 1927. Here in Canada, the C.P.R. and C.N.R. are introducing huge locomotives of great power undreamed of ten years ago. Enormous tonnage is now hauled in a single train which not many years ago would have called for the operation of two or three engines. Thus the number of train crews is lessened.

Cheap electric energy distributed all over the country, with a multitude of new machines of all kinds, electrically operated, is replacing hundreds and thousands of small industries where much work was done by hand. But, it will be said, great industries have been built up as a result of new inventions, and now employ hundreds of thousands, as, for example, the automobile industry, radio, aviation, etc. But each replaces the work of the hand, and the automobile, and its companion the truck, it has replaced the manufacturer of carriages, farm and other vehicles, and the maker of harness is fast disappearing. The village blacksmith is almost extinct. On the one hand the automobile industry provides increased freight traffic for the railways; on the other hand it takes both freight and passenger traffic away from them.

One motor truck does the work of several horse drawn wagons; one combine replaces two binders; a threshing machine and a gang of horse-drawn stokers, teamsters, and other helpers. A motor driven plow or ditch digger supersedes a small army of laborers. The radio has silenced many a piano and phonograph. The moving picture has almost entirely replaced its travelling shows in all but the largest cities, and now the "talkies" with their elaborate musical presentations are finishing the work, as well as throwing thousands of men and women engaged in the theatre and moving pictures out of work. Each picture is its own orchestra.

Mass production aided by wonderful new machinery turns out moving pictures of all kinds in ever increasing volume, and one man who formerly a score found work. That one man receives greatly increased wages and enjoys a higher standard of living, but his high wages are but a mere fraction of the cost of production with cheap power, machinery, and mass production the main factors of cost. So while he and others prosper, and many people enjoy things formerly denied to them because of their cost, the unfortunate displaced in this onward march of progress are unemployed and in distress.

With no work to be found for which by previous training and experience they are best fitted, they find all other avenues closed to them because the wage process is at work everywhere.

What is the solution? No man yet knows. It will be found, because it must be. The continuance of civilization depends upon it. In a word, as one writer puts it, something of the same kind of engineering efficiency which has brought about these displacements of man-power will have to be applied to the problem of finding openings for competent men where they are needed.

### Situation in Wheat

Grain Trade Not Only One To Suffer From Market Fluctuations

What Canadians need to do is to quit rocking the boat; there have been market crashes in stocks of all kinds during the past few months; industry on this continent has suffered, and it is foolish to single out the grain trade as the cause of all our misfortunes. The quoted price of Canadian stocks today is \$5,000,000,000 less than it

was in July last year. Why, then, all the rearmenations because, on some 225,000,000 bushels of export wheat, the price has dropped 40 cents a bushel, or only some \$90,000,000 all told?—Lethbridge Herald.

### Does Away With Noise

Contractors In London Use Silencer On Road Drill

Equipped with a silencer which eliminates more than half the noise and much of the vibration, a pneumatic road drill attracted much attention when exhibited recently in London. It was made for the use of contractors who meet with protests against the noise made by the ordinary drill exhaust. The silencer, clustered around the centre of the drill, is designed on the principles of the motorcycle silencer.

### British Navy Seen Changes

Admiral Sir Hugh Watson Retires After Serving For 45 Years  
Admiral Sir Hugh Watson, who has served in the royal navy for 45 years, and has seen service in almost every "operational" off East Africa, in the China and Mediterranean stations, and served throughout the World War, is retiring at his own request. He is 58 years of age. He was vice-admiral, commanding the reserve fleet 1926-28.

Rear Admiral H. E. Grace, son of the famous cricketer, has been promoted vice-admiral, and placed on the retired list. He is 54 years of age. During the war Rear-Admiral Grace, then a captain, commanded the Graton, Yarmouth, Birkenhead and the new Vindictive.

The admiralty recently announced the promotion of Vice-Admiral Sir Ernle Chatfield, commander-in-chief of the Atlantic fleet, to admiral. His appointment to command the Mediterranean fleet was announced recently.

### A SPRING TONIC AN AID TO HEALTH

You Can Lay the Foundation Of Good Health Now By Building Up Your Blood and Strengthening Your Nerves Through the Use Of Dr. Williams' Pink Pills

The good old fashion of taking a tonic in the Springtime, like most of the customs of our grandparents, is based upon sound common sense and good medical practice. Winter is always a trying time for those who are not in good health. Many men, women and children go through the winter on reserve strength they have stored up during the busy summer months, and grow increasingly pale and languid as the spring days approach. A tonic of the blood and nerves at this time will do much for such people, by putting color in the cheeks and banishing that tired feeling that worries thousands of people at this season of the year.

Pills. It is impossible to be energetic if your blood is thin and weak, or if your nerves are frayed or shattered. You cannot compete with others if you do not get refreshing sleep at night, or if your appetite is poor or you are losing weight. A tonic tonic at this time to add to your efficiency now, as well as to save you from suffering later. There is no realm of medicine, there is no safer or better tonic than Dr. Williams' Pink Pills. They build up and enrich the blood which circulates through every portion of the body, strengthening jaded nerves and running organs, and bringing a feeling of new strength and energy to weak, easily tired, dependent men, women and children.

Mrs. L. Huggan, Summerville Centre, N.S., writes:—"Dr. Williams' Pink Pills has been of the greatest benefit to me. A few years ago I was in a badly run down condition. I became so weak and nervous that I could scarcely go about. My doing my housework left me completely used up. Everything seemed to worry me and I was in a very discouraged condition when I began taking Dr. Williams' Pink Pills. I soon found the pills helping me, and continuing their use I fully regained my health. Since then I always take a few boxes in the Spring to build me up for the hot weather, and always I find the best results. I therefore heartily recommend these pills as the best of health-builders."

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Saskatchewan Coal

Saskatchewan's coal production in 1929 was more than 100,000 tons higher than in 1928, and created a record for the province. Total production was 568,729 tons as compared with 464,425 tons in 1928.

As a verminiferous effective preparation is Mother Graves' Worm Expeller, and it can be given to the most delicate child without fear of injury to the constitution.

The Aeroplane in the North  
The aeroplane has in the last few years been employed in the northland of Canada and its use for mail service, prospecting, and general commercial purposes is rapidly increasing.

### British Headmasters Are Visiting Canada

Means Important Step Towards Empire Solidarity Says Official

The visit of the British public school headmasters is regarded by educational 'authorities' throughout Canada as an important step toward the goal of empire solidarity and understanding," said Kenneth Lindsay, advance agent for the party, who returned to Montreal, having concluded a preliminary tour of the Dominion and completed arrangements for the tour. Mr. Lindsay left the city for Quebec and Saint John, N.B., where the 15 headmasters arrived on the Canadian Pacific liner "Duchess of Bedford."

Nine universities will be visited according to Mr. Lindsay. These include Dalhousie, McGill, Kingston and Toronto Universities, the Universities of Manitoba, Saskatchewan, Alberta and British Columbia and Laval University, Quebec.

The party arrived in Montreal on April 11, having visited Halifax, Quebec, and Shawinigan Falls. They left Montreal for their western tour over Canadian Pacific lines on April 13, arriving at Ottawa on the same day. Thence they proceed to Toronto, Winnipeg, Regina, Vancouver and Victoria.

The headmasters are all principals of important British public schools. Among schools represented in the party are Charterhouse, Bedford, Christ's Hospital, Halesbury, St. Paul's, Marlborough, Appleton, Manchester Grammar School, Mill Hill, Whitgift, Wrekin, George Watsons and Dauntsey.

Amplesforth College, important Catholic school, conducted by the Benedictine Order, is represented by V. P. Neville.

### Invention For Blind

Standard Typewriter Keyboard Can Be Converted Into Braille System

John Kemp, Tevlistock druggist, has completed an invention whereby the keyboard on any standard make of typewriter may be converted into a Braille system keyboard for blind persons, who may wish to take up stenography.

The invention consists of a set of brass caps, embossed with Braille letters and figures instantly detachable.

Mr. Kemp, who has a blind daughter, has offered the invention free to institutions for the blind.

### Minard's for Falling Hair.

Use Good Seed

In the opinion of a successful farmer and grain exhibitor, registered seed or seed closely traceable to registered is preferable because it produces uniformity in ripening, in appearance and in the shape of kernels. Impure or mixed seed is sure to produce a sample with different types and lacking in uniformity.

### Largest Deposit Of Diatomite

The largest deposit of diatomite in the Dominion at present known is in the vicinity of Quessell in central British Columbia, where material of pure grade occurs in beds forty feet thick that extend over a huge area.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

Doctor: Your throat is in a bad state. Have you ever tried gargling with salt water?

Sailor: Yes, I've been shipwrecked a dozen times.

Ruins of an old Roman wharf, where no doubt the emperors' pleasure galleys were once moored, have been found at Lake Neau.

Minard's has Wonderful Antiseptic Power.

### New Line To Bay Shortens Route

Sturgis Cut-Off Will Be Ready For Operation Early In May C.N.R. States

Construction work on the Sturgis-Hudson Bay Junction branch line of the Canadian National Railways will be finished about May 18, and the line will be turned over to the operating department on that date. An announcement to this effect was made recently by A. E. Warren, western vice-president of the company.

A very considerable saving in time and distance between southern Saskatchewan and the Hudson Bay Railway will result with the completion of the line and the opening of it for regular freight and passenger service. Between Regina, Moose Jaw and other southern points in Saskatchewan there will be a lessening of 84.8 miles over the existing route from those centers to The Pas. Intermediate points such as Melville and Yorkton will also be brought considerably nearer to The Pas and the Hudson Bay Railway.

Until the Sturgis-Hudson Bay Junction line goes into operation the route from Regina to Hudson Bay Junction is via Swan River, a distance of 429.6 miles. The distance by way of the new route which lies through Melville, Yorkton, and Canora will be 335 miles.

Passenger and freight train services are now under consideration by the departments concerned but it is not expected that an announcement on train service will be made for a few weeks.

The Sturgis-Hudson Bay Junction line was one of those included in the three-year branch line programme which was passed by parliament in 1927. Although it is practically the last item on that programme to be completed, the date upon which it is to be turned over for operation is more than six months ahead of that set by the bill. This adds to the enviable record of the engineering forces of the Western Region of the Canadian National Railways in completing all its construction work months ahead of the limit set by parliament. The laying of steel to Churchill and the completion of the Flin Flon and Sheridan Railways and the Aberdeen-Melfort branch line are other examples.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has to its credit thousands of cases which other preparations have failed to benefit. It brings help to even the most severe case and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

### Make Many Tests

Every year the Physical Testing Laboratory of the Topographical Survey, Department of the Interior, tests several thousand clinical thermometers for government departments or for the general public. A certificate is given with each thermometer which successfully passes the required tests.

Carloads of scrap films from Hollywood are shipped to refineries so that the silver in them may be recovered.

## Don't dose a Child's Codd

CONTINUAL dosing upsets children's delicate stomachs. Vicks is applied externally and therefore cannot disturb the digestion. It acts in two ways:

(1) The body heat releases the ingredients in the form of vapors which are inhaled.

(2) At the same time Vicks "draws out" the soreness like a poultice.

## VICKS

NEW "ICE" DISCOVERED  
New Liquid Yet Unnamed, Boils At 18 Degrees Below Zero

Discovery of a new refrigerant which, it is held, will bring about a vast improvement in living conditions, has just been announced by the division of industrial and engineering chemistry of the American Chemical Society.

The refrigerant, as yet unnamed, is a compound of carbon, chlorine and fluorine and is technically known as fluoro-chloro-methane. It is a clear white liquid, boiling at 18 degrees below zero Fahrenheit. Commercial production, the announcement said, will probably not be practicable for at least two years.

### Combines In Western Canada

The successful introduction of the combine into Western Canada by the Dominion Experimental Station at Swift Current, Saskatchewan, in 1923 has aided materially in establishing this system of harvesting in the Prairie Provinces. Since its introduction in 1922, the use of the combine has spread till in 1928 over 3,500 combines were sold in Western Canada.

## A FIVE POWER NAVAL PACT HAS BEEN REACHED

London, Eng.—After many weeks of negotiation the five great navy powers of the world have reached an agreement. There will be a five-power naval limitation agreement and three powers—the United States, Great Britain and Japan—will sign certain additional clauses to which the two Latin nations do not at this time, feel they are able to subscribe.

There will be the two understandings, the partial agreement of the five and the complete accord of the three.

Political discussions regarding a security pact and definition of the guarantees provided by article 16 of the League of Nations covenant will be left over for Geneva and the league.

The main provisions of the proposed major pact are:

1. A five-power agreement on the extension of the Washington capital ship holiday until 1936. This means an extension of five years.

2. A five-power agreement which would bring within the scope of the Washington treaty, limitations in aircraft carriers under the 10,000-ton mark. The Washington limitations on this category applied only to those over that tonnage.

3. A treaty among the five powers in the direction of the humanization of submarine warfare.

4. A treaty among the five powers covering special exempt vessels not covered by the Washington treaty.

5. A five-power treaty on methods of limitation. This covers the old problem so prominent at Geneva of the limitation by lump tonnage as against limitation by categories.

The foregoing provisions will be signed by all the powers attending the conference.

The three-power agreement of Great Britain, the United States and Japan goes further. It limits not only the Goliaths and aircraft carriers, but it limits all categories of warships. It covers cruisers in the matter of which the United States and Great Britain differed so radically at the Geneva tri-partite conference in 1927.

It is understood that the following limitations of tonnage will apply:

Cruisers carrying eight-inch guns; British Empire, 146,800 tons; United States, 150,000 tons; Japan, 105,400 tons.

Six-inch gun cruisers; British Empire, 122,200 tons; United States, 145,000 tons; Japan, 100,450 tons.

Destroyers; British Empire, 150,000 tons; United States, 150,000 tons; Japan, 105,500 tons.

Submarines; British, the United States and Japan to have 52,700 tons each.

The only naval restriction affecting France is that in respect to the extension of the Washington battleship holiday and also that concerning aircraft carriers. France, however, never built up to the limit in battleships allowed her by the Washington treaty.

### Bill Given Hoist

Legislation On Resources Agreement Will Stand Until After Easter recess

Ottawa—Legislation to ratify natural resources agreements with the four western provinces will not be proceeded with until the first of next month.

A misunderstanding was the cause of an unlooked-for delay.

Hon. Charles Stewart, Minister of the Interior, told the House of Commons that the four bills could not be proceeded with until after the Easter recess as he was not prepared to complete ratification at this time.

Drafts of the agreements have been returned by the governments of Saskatchewan, Manitoba, Alberta and British Columbia.

### Suggests Pensions For Blind

D. B. Lawley Advocates Aid For Those In Isolated Areas

Ottawa—Pensions for blind persons living in isolated parts of the country were advocated before the Canadian Federation of the Blind by D. B. Lawley, travelling secretary of the organization.

There are 7,000 sightless persons in Canada, he said, the majority of whom lost their sight after reaching 30 years of age. The handicap, he explained, weighs much heavier on those living in rural areas. He recommended setting up federal and provincial advisory committees to deal with the welfare of these unfortunate.

### For Royal Ranch

Shipment Of Thoroughbred Stock Arrives From England

Saint John—Seventy head of the finest thoroughbred stock arrived here from England destined to go forward by the Canadian Pacific Railway to the Prince of Wales' ranch in High River. This is the first shipment made to the ranch for four years, and great care has been taken by Professor Carlyle in his selection of the animals to secure the very finest types.

The 40 pedigreed Shorthorn cattle, all of which have passed the extreme tuberculosis test, are quite the best shipment that has ever been brought to Canada in my experience," Professor Carlyle said. "They represent purchases made from some of the most famous Scottish and English breeders as well as a selection of nine two-year-olds and three yearlings, heirs from the home farm at Stroke Kilnland, Cornwall, which are of the Prince's own breeding."

These heifers are of certain notable Shorthorn families not at present represented on the ranch.

Included in the contingent are 30 Hampshire Down sheep, three of which were prize-winners at every agricultural competition in which they have appeared. These are to improve and supplement the herd on the ranch at present, which has enjoyed such success, rams having been supplied to ranches from Texas to the Peace River.

### National Fuel Policy

Matter Brought Up In House Of Commons In A Series Of Questions

Ottawa—"The question of a national fuel policy for Canada is being brought up in the House of Commons in a series of questions propounded by T. L. Church, (Cons., Toronto Northwest). Mr. Church enquired:

"1. What steps have been taken to carry out a resolution which passed the House of Commons in 1926-27 for a national coal supply for Canada by which all coal would be mined and coked under the British flag, whether from Wales, Nova Scotia or Alberta?"

"2. Has the attention of the government been called to allegations made of 'swindled labor' regarding coal for Canada from Russia made in the House of Commons, London, on April 7, by Sir Newton Moore, (Richmond)?"

"3. What steps does the government propose to take regarding contracts for Russian coal coming into Canada to insure the carrying out of the terms of the aforesaid resolution for a national coal supply, and to prevent Russian coal displacing shipments of Welsh anthracite?"

"4. Is the government aware that 25,000 tons of Russian coal have recently been sold to a Montreal firm, displacing coal mined and coked under the British flag?"

### New Trade Relations

Germany To Cultivate New Markets With Adjoining Countries

Berlin—Cultivation by Germany of closer commercial relations with her eastern and south-eastern neighbors, possibly at the expense of present trade relations with Canada and the United States and Argentina, was urged by Herman Dietrich, vice-chancellor and minister of economics.

He mentioned that the adverse trade balance with Canada was 216,000,000 marks, with the United States, 796,000,000 marks, and with Argentina, 370,000,000. "They send us their surplus agricultural produce but decline to buy from us to the same extent. Consequently, readjustment of our commercial relations with the border states is perhaps the most important task of Germany's economic policy, and this applies especially to Poland and Rumania," he said.

### Might Take Canadian Lumber

Ottawa, Ont.—A party of British Columbia manufacturers, who recently visited Australia and New Zealand, have been in conference with Hon. James Maloolin, Minister of Trade and Commerce, and said a friendly attitude to Canadian products was observed and it is believed that if a revision of the Australian trade agreement was considered, Australia might be prepared to give a preference to Canadian lumber.

Floods Threaten Manitoba Farms Winnipeg, Man.—Rising river-levels west of Winnipeg, forced farmers to resort to dynamiting ice-jams in an effort to obtain relief from threatened floods. Sudden mounting of the level of the Assiniboine River at Poplar Point, about 40 miles west, promises to immerse miles of farm land unless the ice is allowed to flow free.

### Peace Memorial Park

Money To Be Raised By R.C. School Children Donating Ten Cent Pieces

Vancouver.—Money subscribed in ten-cent pieces by the school children of British Columbia, will be devoted to laying out of a peace memorial park on the Canadian side of the Peace Arch at the international boundary between British Columbia and the state of Washington. It was decided at a meeting here of the International Peace Memorial Association.

The United States end of the Pacific highway is being diverted to the Peace Arch, and the Department of Public Works, at Victoria, is changing the Pacific highway from its present position to the right-of-way to the arch.

The work of the International Peace Memorial Association will be to establish a magnificent park area on the Surrey side of the line. The Dominion Government has agreed to turn over certain lands there for a park.

## WAR VETERANS ALLOWANCE ACT IS ENDORSED

Ottawa.—Broadly speaking, the ex-soldiers' organizations of Canada endorse the War Veterans' Allowance Act, which provides for granting to unemployed ex-service men a certain monthly allowance at the age of 60, said Lt.-Col. L. B. La Fleche, president of the Canadian Legion; to the special parliamentary committee on returned soldiers' problems. The bill provides for considering the "burned out" veteran, who is wholly unemployed, eligible for the grant before he has reached 60 years of age.

What was anticipated as a contentious matter was the clause which establishes a departmental committee, under direction of the minister, to control the operation of the act. The minister of pensions, Dr. J. H. King, informed the committee that in this departmental body the veterans would have an honorary member and also honorary members on the various district boards.

Col. La Fleche, speaking on behalf of the veterans, declared that this new provision would be satisfactory inasmuch as it would enable the ex-soldier organizations to keep in touch with the decisions of the committee. He said that the veterans desired it to be made clear that this bill should not have any bearing on the provisions of the Pensions Act.

### Shipped As Waste Paper

Large Liquor Cargo Seized At Niagara By U.S. Customs Officials

Niagara Falls, Ont.—A cargo of waste paper, billed from Port York, aroused the suspicions of United States customs officials across the Niagara River. Working on the theory waste paper is not shipped such distances, the officials opened the car and discovered more than 1,000 cases of rare wines and cordials, hidden under the layer of waste.

The liquor was dumped into the river from the lower bridge to the great delight of boat owners. Word quickly spread that liquor was being thrown over and many persons rowed down under the bridge and salvaged bottles which had not broken.

### Distinguished Visitors

Lt. Hon. Lord Bessie Percy, seventh son of the seventh Duke of Northumberland, and president of the Board of Education in the Baldwin ministry, accompanied by Lady Percy, is shown here on board S.S. Duchess of Athol, at Saint John recently. The distinguished couple are on a visit to Canada and the United States, where Lord Percy will inaugurate a series of lectures at Yale University on Anglo-American relations.

### VISITS BIRTHPLACE

Mrs. Almee Semple McPherson, noted evangelist, who heading her pilgrimage to the Holy Land, stopped at London, Ont. her birthplace, to mark a ballot showing how she would determine six contentious problems of the day.

### Canada's Relations

With Russia

Are Very Similar To Those With Other Countries

Ottawa.—Diplomatic relations between Canada and Russia are similar to those existing between the Dominion and other countries with the exception of those countries in which Canadian legations are located. This statement was made in the House of Commons by Premier Mackenzie King, Russia, the prime minister stated, had enjoyed certain special diplomatic privileges which had been discontinued several years. The result of the discontinuance of these special privileges, Premier King stated, was that relations with Russia, diplomatically, were on the same footing, as with Austria, Italy and such countries. A Canadian desiring to go to Russia, the prime minister remarked, could secure his passport in Ottawa, and have it vised by Russian authorities.

### Eastern Canada Interested

Ontario Grain Growers Plan To

Toronto, Ont.—Eastern Canadian grain growers have already started plans to enter the world grain show at Regina, still two years away.

A few masterpieces prize lists which have found ways into agricultural centres here have resulted in a flood of requests for more and these requests are being communicated to the Regina promotion headquarters.

Seven of the leading grain growers of Perth County, two of them consistent winners in Ontario competitions, recently declared at Stratford that they have already started developing seed for the world show. Middlesex farmers have also started organizing.

### New Fuel Oil For Planes

Hartford, Conn.—A new device for an aeroplane motor which permits use of all grades of fuel oil has been successfully demonstrated by the Pratt and Whitney Aircraft Company. The device eliminates the usual carburetor and intake system of the gasoline engine by a new system of direct fuel injection.

### Duchess Takes Up Aviation

London, England.—The Duchess of Bedford, who is 65 and an aviation enthusiast, made her first solo flight in her own baby plane at her home, Worsam Abbey, Bedfordshire.

### Natural Resources Bill

First Reading Of Bill To Ratify Agreement With Saskatchewan

Ottawa.—The bill to ratify the agreement between the Dominion Government and the Government of Saskatchewan, transferring the unalienated natural resources of Saskatchewan to the provincial government was introduced in the House of Commons recently and given a first reading. The only difference between this agreement and the one made with Alberta, Hon. Charles Stewart, Minister of Interior, explained, was a clause providing for submission of certain questions to the courts. This litigation will not delay the transfer of the resources. They will be handed over as soon as the agreement is ratified by parliament and approved by the Imperial parliament.

### Miners Will Not Strike

Lethbridge Men Decide To Apply For Board Of Conciliation

Lethbridge, Alberta.—There will be no strike in the Lethbridge minefield. The result of a vote announced at a meeting of the miners was 278 for conciliation and 142 for strike action.

The miners will now apply for a board of conciliation under the Lethbridge Act to consider their demands, which include a small increase in wages and recognition of the Mine Workers' Union of Canada.

## SAYS BRITISH NAVAL POLICY IS DANGEROUS

London, England.—Great Britain's war-time first sea lord, Admiral Lord Wemyss, said recently that Great Britain's future as a maritime power was fraught with grave possibilities under the present naval policy and other policies of the government.

Making the presidential address at the Institute of naval architects, Lord Wemyss pointed to the reduction of 46 per cent. in the British naval estimates as compared to 1914 "concurrent with an enormously increased national budget."

"Is this backbone of British industry and national defence," he asked, "to be sacrificed in order that a few shillings should be saved on a more magnificent scale to those who, in many cases, might be usefully employed in developing empire resources and helping to produce our own overseas?"

"Let us hope that the reaction, which must inevitably come sooner or later, toward fuller realization of our naval requirements may find the British people to act before our national resources in men, money and material are irretrievably lost through a policy of mistaken confidence and extravagant expenditure in unprofitable channels."

The suggestion was made in parliament recently that the admiralty should take opportunity of the presence in London of Dominions' naval delegates, to discuss the question of revising the contributions of the Dominions to Imperial naval defence. Hon. C. G. Ammon, secretary to the admiralty, said the question is more appropriate for the Imperial Conference.

H. Ramsbottom (Cons., Lancaster), who had raised the matter, insinuated the real reason for not discussing the question was that the British Government had "pinched" the contributions of those Dominions interested in the Singapore naval base, by announcing work had been slowed down on this base without saying anything about return of the money contributed. Mr. Ammon did not reply to this.

"While all the self-governing communities of the British Empire have an equal claim on the protective role of the navy, they take widely varying views of their obligations towards the cost of Imperial defence."

The statement was provoked by study of the memorandum on respective contributions of Great Britain and the Dominions, released by the first lord of the admiralty last week. This showed the expenditure per capita in Britain was \$5.96; Australia, \$1.83; New Zealand, \$2.47; Canada, 37 cents; South Africa (white only), 22 cents.

An even more striking manner of expressing these inequalities is the proportion of expenditure on naval defence to the value of the import and export trade protected. "Truth to be said," the moral seems to be that neither Canada nor South Africa think there is the faintest prospect of another naval war, and that it is only wasting money to provide against it."

## NO DECREASE IN WHEAT ACREAGE NOW EXPECTED

Winnipeg, Man.—Acreage of wheat on the prairies of the west will not show a decrease this year, according to indications at present. This is the verdict of farm authorities in Manitoba, Saskatchewan and Alberta, as expressed to the Canadian Press. Spring rains, however, are characterized as a generally necessary means of replacing depleted sub-soil moisture.

Forecasts of ultimately decreased wheat-areas in the west are not unfounded, nevertheless, by the opinions that acreage will remain "much the same." It is conceded on all sides that weather during the remainder of April, if adverse, may quite reasonably affect a cut in the expanse of territory seeded to wheat.

While pleas for acreage cuts have been heard in several parts of Saskatchewan the wheat pool, which controls more than one-half of the province's wheat, has not made a proportion of the entire prairie crop, has made no such move to restrict sowing. Pool officials have gone no further than to advise against sowing of land that is not "least in doubt," but have made a belief that this year farmers should not take a gamble which might be condoned in better years; they advise, in the language of the farmer, that summerfallow given the benefit of the doubt. President A. J. McPhail, of the pool, has stated that the question is one for the individual farmer to decide.

Two locals of the United Farmers of Canada, Saskatchewan section, have passed resolutions asking the parent body to advise that farmers of the province cut down on wheat acreage. Jellicoe local took the stand a week ago and Wilkie local has also expressed its opinion. The U.F.C. has announced no attitude on the matter, but it is recalled that President George A. Williams, a month ago, stated that Chairman Alexander Legge, of the United States Farm Bureau, had made a "sound proposal" when he stated that control of production offers the only solution for the surplus grain problem.

First advocacy of reduced acreage in Saskatchewan came from Mayor John W. Hair, of Saskatoon, six weeks ago. He claimed that the U.F.C. in annual convention might well advise that wheat areas should be cut down. No such stand was taken by the convention, however.

By the time seeding is under way generally, the season is expected to strike about the average starting-time. If it comes earlier, as is early though scattered reports of sowing have been received from virtually all parts of the prairies, southern Manitoba and northern Alberta are probably the most advanced at the present time.

Little seeding has been done in Saskatchewan, where some 60 per cent. of the entire wheat crop of Canada is produced. Throughout the province, though, acreage will be sustained in confident anticipation of the required rains, in the opinion of superintendents of experimental farms at strategically located points.

### Colonel Ralston Is Returning To Canada

Hon. Philippe Roy Taking His Place At Disarmament Conference

London, England.—Col. the Hon. J. L. Ralston, head of the Canadian delegation to the naval disarmament conference, with Mrs. Ralston, have sailed on the steamship "Perry" for Canada. The liner, sailed from Southampton for Halifax, where it is due to arrive April 18.

Col. Ralston's place will be taken by Hon. Philippe Roy, Canadian minister at Paris in confident anticipation of duties and work in his department of national defence necessitates the return of the Canadian cabinet minister.

Will Attend Fussion Play Oberammergau.—Prime Minister Ramsay MacDonald, of England, has ordered tickets for himself and family for the Passion play to be presented here this summer.

New Post Office For Brandon A permit for \$130,000 has been issued to cover the erection of the new post office in Brandon, for which excavation work has begun.

So are foods. Some irritate and inflame the digestive tract. Others bring peace, harmony, contentment.

## MOTHER'S BREAD

Is the great tranquilizer. It soothes and nourishes. Why? Because it is nature's complete ration, representing all food and no waste. Build your meals upon it.
